Familiar with Python and Java, and practical experience using Nmap, OWASP ZAP, and Hashcat through projects and internships. Interested in building useful software, strengthening security fundamentals, and continuous learning.

TECHNICAL SKILLS

Programming	Python, Java, HTML
Cybersecurity	Nmap, OWASP ZAP, Hashcat, network scanning, vulnerability assessment, password security testing
Tools & Core Skills	Git, GitHub, problem-solving, data analysis, teamwork, communication

EXPERIENCE

Cybersecurity & Ethical Hacking Intern — SkillInfyTech IT Solutions Pvt. Ltd.

Remote | Apr 2026 – May 2026

Gained practical exposure to network scanning, vulnerability assessment, and security testing. Used Nmap, OWASP ZAP, and Hashcat while learning core security concepts and ethical hacking methodologies.

Data Science Intern — Thiranex

Remote | May 2026 – Jun 2026

Worked with Python for data analysis, data processing, visualization, and interpretation. Developed analytical and problem-solving skills through practical, data-driven tasks.

KEY PROJECTS

Network Scanning Using Nmap

Performed network reconnaissance to identify open ports, running services, and network information; reviewed scan results to understand potential exposure.

Web Vulnerability Assessment Using OWASP ZAP

Conducted web application vulnerability assessment with OWASP ZAP to identify potential security issues and review application security.

Password Security Testing Using Hashcat

Analyzed password hashes in a controlled environment to explore password security and password-cracking techniques.
